Correspondents of "The Sun"  
Give Estimates of  
the Vote.

## WILSON MAY WIN STATE

Third Place Is Indicated for  
Roosevelt. With Straus  
Leading Him.

## DEMOCRATS ARE UNITED

The Progressive Votes to Come  
Mostly From Republican  
Ranks, to Taft's Loss.

In answer to requests from THE SUN to its correspondents in many of the up-State counties that they send the best election forecast possible at this time, made up from the opinions of the well informed political figures in their home districts, statements have been received from more than half the counties in the State and are herewith presented.

A consensus of the reports received indicates that Wilson will carry New York State with Taft second and Roosevelt third. At the same time it must be said that nearly every correspondent prefaced his report with the statement that in no previous campaign has it been so difficult to tell with any degree of accuracy just what the voters are going to do.

The statement is generally made that the Democrats are thoroughly united and will lose no votes in the third party. The estimate of the Roosevelt strength is invariably given as an estimate pure and simple, but nearly all the correspondents agree that the Progressive ranks are filled by former Republicans. Straus appears to be stronger than Roosevelt in some of the central New York counties. The despatches follow:

### Roosevelt Third in Erie.

BUFFALO, Oct. 20.—In 1908 the votes cast in Erie county numbered about 100,000. There has been such a falling off in the registration that it is certain no more than that number of votes will be cast this year, probably fewer. If approximately 100,000 votes are cast in this county this year it is the present opinion of practical politicians and district leaders on both sides that this vote will be divided as follows:

For Wilson, 40,000 to 45,000; Taft, not less than 35,000; Roosevelt, 15,000 to 20,000. Straus should carry the county but it is generally agreed hereabouts that Straus is the strongest Bull Moose on the ticket, stronger than Roosevelt.

BATAVIA, Oct. 20.—The registration of voters in Batavia has been unusually large. Estimates of the Progressive strength in Genesee county vary from 80 to 200 or more. Probably 1,000 will be nearer the correct figure. Taft will carry the county, but by a decreased majority.

Evidences are unmistakable that the farmers, at first inclined to stray off into the third party, are returning to the Republican ranks and most of them will be in line at election time. The bulk of the Progressive strength seems to be among the factory workers.

It also appears probable at this time that Straus will run ahead of the national ticket and of his associates on the State ticket.

MEDINA, Oct. 20.—Orleans county shows more anxiety than ever before in a Presidential year. It is nominally 1,500 Republican under good Republican circumstances, but there is every indication this year that while the Democratic vote will not be greatly disturbed the Republican plurality will be entirely swept away by the Roosevelt vote. Yet there is little active Bull Moose sentiment and almost no agitation.

In the factories and among the rural people who objected to reciprocity, there is open sentiment, but most of the rock-ribbed Republicans who are in earnest about Roosevelt and Straus wear their badges near the armpits of their vests, out of sight unless they are in the presence of other enthusiasts. It is getting to be a sort of free masonry up here, but it is doubtful if it is going to result in more than 1,200 or 1,500 votes, which would result simply in sending Wilson out of Orleans county with a slight plurality. It is certain there is no serious defection to Roosevelt among the Democrats who might have gone to him in large numbers were they not so well satisfied with Wilson.

### Taft Strong in Chautauque.

JAMESTOWN, Oct. 20.—It is difficult to make an accurate estimate of the Roosevelt strength in Chautauque county. Charles H. Wick, chairman of the Republican county committee, declares the usual Republican plurality of close to 10,000 will be maintained. The Roosevelt people claim they will carry the county, but have no real justification for such claim. Assuming that there is considerable defection in the county among the farmers, it follows that the usual Republican plurality will be cut to some extent, but it is probable that Taft will carry the county by from 3,000 to 6,000 plurality.

The Roosevelt strength is confined quite largely to Jamestown, which is the largest Republican stronghold in the county. There is little defection in Dunkirk and the lake shore towns of northern Chautauque.

ACHEN, Oct. 20.—Cayuga county, always a hotbed of Democratic insurgency, this year for the first time in Presidential campaign indicates a spread of the contagion to the Republican ranks. The county in the 1910 election showed 5,500 voters, of which 7,700 were enrolled Republicans, 3,400 were enrolled Democrats and the balance of approximately 1,000 were Socialists leading.

The Democrats this year are united as never before and with the open enrollment of many Republicans in the Cayuga county Woodrow Wilson Club expect to poll a little better than normal strength, probably 4,000 votes.

The Progressive party will secure signatures for its petition when approximately 1,000 names had been secured in Cayuga county. Charles A. Wright expects to carry at least 2,500 Bull Moose votes. Wright, who is a Republican, claims that the Roosevelt vote will be 3,800 or even 4,000 votes in Cayuga county. The organization Republicans concede 1,200 to the Bull Moose. The Bull Moose will have to poll more than 3,000 votes, however, before Democratic success is assured, declare local leaders.

Based upon these estimates the race will be close between Taft and Wilson,

178 B'way, N. Y. 175 B'way, N. Y.  
350 Fulton St., Jamaica.

with the latter leading. Roosevelt will run third.

Oct. 20.—In Madison county the drift of the county vote is back to Taft. He may receive 4,800 votes in the county, Wilson 3,600 and Roosevelt 2,000; pluralities for Taft, 1,200.

An estimate of the vote for Governor is: Hedges, 5,800; Sulzer, 3,400; Straus, 1,200; pluralities for Hedges, 2,400. Reports from farmers show that Roosevelt strength in the rural communities is overestimated, but here in the city—the only city in Madison county—Roosevelt is strong enough to doubt to give an edge, usually 20 to 200 Republican on President, to Roosevelt.

DELHI, Oct. 20.—Trustworthy sources from all parts of the county of Delaware indicate that Roosevelt will develop a surprising strength. He has many ardent supporters and more Republicans are non-committal than party managers relish. Conservative estimates in three large towns of the county place Roosevelt's declared vote at 450. The impetus of such a body of voters will carry additional votes.

This ratio will surely give Roosevelt 2,500 in the county, mainly from the regular Republican ticket, which will assure Wilson the county and place Taft third in the race. The Democrats are aggressive, the Republicans apathetic, Moores cheerful.

OWEGO, Oct. 20.—It was not known until Wednesday night that the Progressive party would have enough signatures to place a county ticket in the field but at 11:22 o'clock that night they filed a petition containing 661 names. An attempt was made to secure the endorsement of one or more Democratic candidates if the necessary number of signatures were secured, but the only concession the Progressive managers were willing to make Egbert Hammond, the Democratic candidate for Superintendent of the Poor, as Overseer of the Poor. This latter is a city office and is not voted for here until February.

Tioga is a Republican county and should be carried by that party; however, the Progressive party may change it. Many of the Democrats here are not ardent supporters of Roosevelt and Republicans.

Of the latter by far the greater number voted against the Republican ticket in the last year's election, so the actual voting strength of the Republican will not vary much from last year and should be far better than in 1910.

### Ontario Is Uncertain.

CANANDAIGUA, Oct. 20.—The political condition in Ontario county is involved in doubt. There seems to be deep interest, but there is little excitement and also little activity. The candidates are making a vigorous campaign. Mr. Straus and the Democrats are making a strong effort to carry the county. The Republican ticket is strong, but the Progressive ticket is also strong.

Seneca is a Republican county and should be carried by that party; however, the Progressive party may change it. Many of the Democrats here are not ardent supporters of Roosevelt and Republicans.

Of the latter by far the greater number voted against the Republican ticket in the last year's election, so the actual voting strength of the Republican will not vary much from last year and should be far better than in 1910.

### Light Vote in Ulster.

KINGSTON, Oct. 20.—Roosevelt will receive about 1,200 votes in Ulster county. Probably 80 per cent. of this will come from men who usually vote the Republican ticket, the other 20 per cent. from Democrats in non-party districts.

The Progressive party in this county will get its vote from men who are admirers of Roosevelt and from those who want a change and wish to rebuke the Republican party.

Indications are that the placing of names of some Republican and Democratic nominees on the Progressive county ticket will help the Progressive movement in Ulster. It is doubtful if over 17,000 votes will be cast in the county, the number in previous Presidential years being about 20,000.

POLKSKILL, Oct. 20.—Taft has an excellent chance in Dutchess county, notwithstanding that the Republican organization is poor. He may carry the county by a small plurality. The Democrats have a strong organization, but Democratic tariff policy is not popular among farmers and ought to poll a good vote.

### Wilson May Get Orange.

MIDDLETOWN, Oct. 20.—Orange county normally gives a Republican majority of about 3,000 votes. This year, judging from the indications of non-party districts, the Republican party in this county will get its vote from men who are admirers of Roosevelt and from those who want a change and wish to rebuke the Republican party.

Indications are that the placing of names of some Republican and Democratic nominees on the Progressive county ticket will help the Progressive movement in Orange. It is doubtful if over 17,000 votes will be cast in the county, the number in previous Presidential years being about 20,000.

ROCKLAND, Oct. 20.—Taft has an excellent chance in Dutchess county, notwithstanding that the Republican organization is poor. He may carry the county by a small plurality. The Democrats have a strong organization, but Democratic tariff policy is not popular among farmers and ought to poll a good vote.

Seneca is a Republican county and should be carried by that party; however, the Progressive party may change it. Many of the Democrats here are not ardent supporters of Roosevelt and Republicans.

Of the latter by far the greater number voted against the Republican ticket in the last year's election, so the actual voting strength of the Republican will not vary much from last year and should be far better than in 1910.

Seneca is a Republican county and should be carried by that party; however, the Progressive party may change it. Many of the Democrats here are not ardent supporters of Roosevelt and Republicans.

Of the latter by far the greater number voted against the Republican ticket in the last year's election, so the actual voting strength of the Republican will not vary much from last year and should be far better than in 1910.

Seneca is a Republican county and should be carried by that party; however, the Progressive party may change it. Many of the Democrats here are not ardent supporters of Roosevelt and Republicans.

the sure Republican counties and usually returns 500 to 800 Republican majority. This year the majorities promise to be small and there is a possibility that Wilson will secure a plurality. Roosevelt will be third. The Progressive leaders are bending their energies not so much to secure votes for Roosevelt as to defeat John H. Yale for Assembly.

Roosevelt's strength is variously estimated at between 300 and 500 in the county, drawn mainly from former Republicans. A forecast of the Presidential vote is: Taft, 1,500; Wilson, 1,300; Roosevelt, 400.

### Socialist Vote for T. R.

SCHENECTADY, Oct. 20.—The Progressives with a number of the professors in Union College and some of the former Republican leaders and officeholders promise to figure prominently in the fall election in Schenectady county. The young voters especially are strong for Roosevelt. The Progressive vote will be drawn from the heavy vote that was given the Socialists last fall by persons who voted with the party for a change in government and who were not Socialists. Roosevelt and Wilson promise to lead in the race with Taft a poor third.

Oct. 20.—In Greene county in 1910 more than 7,000 votes were polled. This year it is expected 7,500 votes will be cast. A forecast in round numbers is: Wilson, 1,000; Taft, 3,000; Roosevelt, 200 to 300; Sulzer, 300; Hedges, 2,500; Straus from 1,000 to 1,500.

The Republican county machine is in a bad way. Editor Snodgrass of the *Cairo Herald* was the nominal candidate for Assembly but refused to run. No one could be found to stand and Frank D. Cole, county chairman, was obliged to take the nomination. Eugene Wells, a prominent Republican of Athens, was named for Sheriff, and he too balked, leaving the Democratic nominee and a Bull Moose the only contestants.

It is expected that the Progressive vote in Greene county will be about 5,000 to 5,500. Of this number it is safe to say that the Roosevelt vote will be over 1,000, 80 per cent. of which will be drawn from the Republican party. On such a basis Wilson would carry the county and it is not too far to say that on the Presidential ticket Columbia will not vary greatly one way or the other from this figure.

The Straus sentiment apparently is about as strong as the Roosevelt sentiment. The Republican county ticket is stronger in Columbia than either the national or State tickets and should elect several candidates. The Senate fight is extremely close and the majority for either Republican or Democrat is not likely to go over 100 either way.

Oct. 20.—Columbia county is normally 500 Republican, the vote being divided in Presidential years about 5,500 to 5,000. Of this number it is safe to say that the Roosevelt vote will be over 1,000, 80 per cent. of which will be drawn from the Republican party. On such a basis Wilson would carry the county and it is not too far to say that on the Presidential ticket Columbia will not vary greatly one way or the other from this figure.

150 votes less than Roosevelt. Registration is larger than four years ago. BALLYSTON SPA, Oct. 20.—Saratoga county is normally 3,000 Republican in a Presidential year, but the introduction of the third candidate, Theodore Roosevelt, will change these figures this year. It is expected that Taft will carry the county by a small plurality, possibly 600. Wilson will be second and Roosevelt third.

The Progressives claim they will poll 2,000 votes in the county, although this is believed to be too high an estimate. If they secure 1,500 they will be doing well. The Progressives will draw from the Republicans and the Democrats are expected to hold the normal vote of that party.

WHITEHALL, Oct. 20.—Washington county Bull Moores assert that they will poll 2,000 votes in the county for Roosevelt, and as it is expected that 85 per cent. of this will come from the Republicans the Republican plurality of 4,388 polled four years ago should be cut to about 2,000. The county is a good one for the Bull Moores claim they will carry the county for Roosevelt, but a conservative prediction places their vote at 2,000, which is about the same as some Republican leaders concede to them.

The Democrats are solidly united. Very few Democrats will vote the Bull Moose ticket, while quite a large number of Republicans are going to vote for them. Farmers, who support Wilson, many Democrats expect to carry the county for their county ticket and to cut the Republican vote to less than 1,000. President and Governor to as low as 500.

### Taft Third in Steuben.

CORNELL, Oct. 20.—In Steuben county the indications are that Roosevelt will run ahead of Taft but behind Wilson in the coming election. Of a normal vote of 22,000 in a year of a Presidential contest the Democratic vote is slightly over 8,000, but this year Wilson is expected to poll 9,000 or more votes, while Roosevelt is expected to get 6,500 votes to 5,000 for Taft.

The Progressive ranks have been filled almost entirely from the Republican ranks, few Democrats having deserted. The Progressives are more numerous in the rural than the city districts. Wilson will receive the support of numbers of conservative Republicans—Taft, who fear the possibility of Roosevelt's election.

Job Hedges, a former resident of an adjoining county, has a large personal following here and he will probably poll 1,000 votes ahead of Taft. Straus has just completed a campaign in the county, and it is conceded that he will run ahead of Roosevelt. Roosevelt will run behind Wilson, and if he carries the county it will be by a small plurality.

ELMIRA, N. Y., Oct. 20.—Never in the history of Chemung county politics was there less general discussion over national issues than now. A Republican veteran campaigner returning from a visit into the townships said: Two out of every three farmers with whom I conversed asserted their intention of voting for Roosevelt. The remainder seemed evenly divided between Wilson and Taft. It is believed that a reaction from the Taft reciprocity stand.

In this city regular Democrats, especially among business men, are reckoned for Taft this year, while many known Republicans with little love for Roosevelt are openly for Wilson. It is not likely the attempted assassination of the Progressive candidate will cause the slightest change in this vicinity.

Individual candidates for Congress, State Senate and Assembly are making aggressive personal canvasses, but there has been a lack of mass meetings. There is a lack of means to finance mass meetings. Knowing ones predict Congressional Underhill, who defeated Fassett in the townships said: Two out of every three farmers with whom I conversed asserted their intention of voting for Roosevelt. The remainder seemed evenly divided between Wilson and Taft. It is believed that a reaction from the Taft reciprocity stand.

The remainder seemed evenly divided between Wilson and Taft. It is believed that a reaction from the Taft reciprocity stand.

In this city regular Democrats, especially among business men, are reckoned for Taft this year, while many known Republicans with little love for Roosevelt are openly for Wilson. It is not likely the attempted assassination of the Progressive candidate will cause the slightest change in this vicinity.

Individual candidates for Congress, State Senate and Assembly are making aggressive personal canvasses, but there has been a lack of mass meetings. There is a lack of means to finance mass meetings. Knowing ones predict Congressional Underhill, who defeated Fassett in the townships said: Two out of every three farmers with whom I conversed asserted their intention of voting for Roosevelt. The remainder seemed evenly divided between Wilson and Taft. It is believed that a reaction from the Taft reciprocity stand.
